

AMRISC ONLINE

AmRisc Online is the web-based platform for producers to quickly quote and bind COASTAL commercial accounts with values up to \$7.5M. From the AmRisc Online dashboard, producers enter risk and mapping information, obtain immediate multiple-option quotes, send bind requests, and directly manage their production. Our producers and the AmRisc Online platform are supported by a team of experienced Underwriters who can assist with unique risk, quote or platform questions.

Target Risks: General property including apartments, lessors risk, retail, offices and mercantile. *See dashboard for detailed Online Target Risk document.*
